Community Health Centers

Accepting applications for our **Family Nurse Practitioner/Physician Assistant Postgraduate Residency Training Program**

QUALITY HEALTHCARE
ACCESS FOR ALL
Since 1971

The NP/PA Residency class begins September 2017.

This 12-month program will provide intensive training in both the clinical complexity of family practice in the safety net setting and training in a high performance, PCMH model for primary care. The program is specifically intended for new family nurse practitioners and physician assistants who are committed to practice careers as PCPs in the challenging setting of community health centers and other safety net settings. We are accepting applications for the 2017–2018 residency class. **Deadline: April 30, 2017. Interview dates: May 12 & 15, 2017.**

Qualifications: Applicants must be recent graduates (less than 18 months) from an accredited Masters or DNP program, licensed (CA APRN) and credentialed (FNP-C) or license/credential-eligible as FNP, or CA licensed PA, with a stated commitment to practice as a primary care provider in Federally Qualified Health Centers (FQHC) or other safety net settings upon completion of the residency.

The residency is a full-time, 12-month salaried position with benefits. The program structure includes precepted primary care sessions, specialty rotations, mentored independent clinics, and didactic and quality improvement sessions.
